## Bob's New Book: Recipes for Soloing over Jazz Standards, Volume I

***Recipes for Soloing Over Jazz Standards*** is a must-have cookbook for vocalists of all levels who are interested in learning how to sing original solos over common chord progressions written to popular jazz melodies. Volume 1 offers a compilation of 10 standard recipes that exemplify the primary musical ingredients of melodic & harmonic vocal improvisation. Each song includes a written 7-stave score, audio files with playback & mixing controls, a musical description of each track, a spotlight on phrasing techniques

and a comprehensive practice regimen. The book is available as a file download. Singers can hone their ear-training skills by singing the roots of chords, vocal bass lines, color tones, scales, arpeggios, extensions and a solo composition integrating these essential components. The exercises are easy, fun and can be learned entirely by ear.

*Bob Stoloff shares in this book his valuable lifelong experiences as an extraordinary artist and teacher. Bob offers not only general recipes for the singer but a step-by-step approach to mastering the jazz standards. Highly recommended.*
