## Verse 1

Wandering through this valley looking up toward the peak  
You long to make this journey, but the devil says you're weak  
Hold to the Master's hand  
Together make a stand  
Step by step so near the end  
Victory's just around the bend.....

## Chorus

Keep on climbing, tho' the mountains look so steep  
Keep on climbing, tho' the storms are raging deep  
Wipe away your tears  
Put away your fears  
Lay aside all your doubt  
He is here to bring you out..... keep on climbing

## Verse 2

Trials and tribulations try to pull your spirit down  
But count it all joy as you walk toward your crown  
Dancing through despair  
Avoiding satan's snare  
Shouting through the pain  
C'mon and praise Him in the rain.....

## Chorus x 2

Wipe away your tears  
Put away your fears  
Lay aside your doubt  
He is here to bring you out.....Just keep on climbing
