SHIFTING INTO THE FUTURE SELF

My Galactic Family has informed me that they have designed a macroprogram that allows us to synchronize our frequencies into the transmutation of the higher realms of consciousness. There are many who are in harmony with the Transmutation Unification Project and there are many who are only repeating the old memories of the life they have lived over and over again. Each individual has a unique contribution to add to the evolutionary expression of Mother Earth. However, only those who are willing to make the sacrifice of allowing all past experience to become transmuted into the higher macroprogram will completely merge into a Communication Zone with the Galactic Family.

Our Starry Brothers have designed a macroprogram, which is a harmonic convergence zone into which all those who wish to transpose into a new key or shift into the parallel reality of the

higher collective consciousness. What they are trying to explain is that the old is old and the new is new. We are working on reprogramming into our Future Selves--not reliving our Past Selves. It really isn't such a great sacrifice to focus on the Etheric Future rather than the solid concepts of the past. We have been asked to realize that the low frequencies of this old culture and society that we have so long been a part of are simply the Hologram created from the darkness of the veil overlayed on our true Network of Love.

We must become a part of the Harmonizing Transmuting Unification Project that allows us to become interconnected and interpenetrated through the Fields of Multidirectional Networks. These are the universal vortices of crystal light energy that stream and braid through the signatures of our starry brothers and weave into our cellular structure to allow us to become woven into the Angelic Consciousness, the Starry Consciousness, the Galactic Consciousness, the Cosmic Consciousness.

This Aquarian Age will provide the light tools of crystal light, crystal dust, crystal gel from our Co-Creative Team and our synchronization into the signature alignment with all spheres of our musical alignment. We must become transposed as one grand symphony, even though some are on a lower part of the scale than others. The harmony becomes completely melted and aligned into the sweetest harmony of a brand new energetic-vibrational frequency that promotes all minds to melt into such a grand love that we will melt into tears. Creating a new vibrational frequency that will generate an atmosphere and habitat more refined for the evolution of the new golden race.

Mother Earth changes her atmosphere into a more etheric breath of creative consciousness that allows us the freedom to glide and float and swim and breath as a part of her. She transforms in synchronicity with us who are her individualized consciousness cells. We are all a part of this macroprogram of refinement, expansion of consciousness that will allow Mother Earth to transpose her chemical structure around and through our chemical

structure. We may each create our own Island of Light as our Consciousness rises higher and higher into a grand energetic symphony with Mother Earth.

The DNA level of the Island of Light depends on the expansion of your cosmic consciousness and not on your instinct of survival. Expansion of Cosmic Consciousness creates a parallel shift in our perception of reality. As we raise our frequencies into this angelic breath of alignment the desire to prepare a unified consciousness of communitarian fraternal and solidary spirit of a highly developed civilization of the universe will be come the new norm of conduct and conceptual structures.

Our fraternal instincts must be retrieved from deep within Mother Earth's Heart. This is the Cosmic Consciousness of our original design. Our Aquafarian families are waiting there to greet us and to help realign our crystal cell structures into the memory of who we really are.

FREQUENCY SHIFT

The streams of higher frequencies are pouring in so fast that is almost impossible to record them all. The angels have been directing us to record the breaths of consciousness from all entities who are streaming their breaths together through the crystal light energy that is braiding, weaving and streaming a higher frequency of consciousness together. Each time there is a high energy day, the angels place a golden pillar in my left ear and hand me an etheric microphone and then they breath their consciousness through my breath. Sometimes five angels appear, sometimes five hundred--depending on what project they are working on.

The breath of consciousness is what is causing the entire shift of Mother Earth into her Star Essence. We are all turning more star like together. How do we speed up this process individually? The more we raise frequencies and stay in those frequencies the faster we rise into a new dimension.

The Key to Ascending is collecting frequencies through the merkaba, aligning into the sun energy, the helium energy, the rainbow dust, the star dust, soaking in healing waters of crystal temples, singing with the angels, and mermaids in the crystal caves, keeping the mind in the etheric fairy tale state and then finally walking into the spark of Source in the Crystal Heart, after putting on the garment of white light--which means absorb all frequencies of crystal light, iridescent light, rainbow light, golden dust light, star dust until the body is radiating with spirituality of light energy.

NOW--and only Now can the body walk through the diamond door. When the body walks through the door it must walk into the FUTURE SELF. It is this place in Consciousness that we must stay to create the Islands of Light.

I'd like to share some questions that will be answered and practiced in my workshops on CREATING ISLANDS OF LIGHT, PARALLEL REALITIES, and the MUSIC OF THE SPHERES.

I have a couple of questions regarding your process of integrating with your light body.

1. You said that you've completed integrating with your silica-carbon based light body. Does this mean you can disassemble your body and teleport to anywhere you want?

I wanted to add that the silica based body is the natural result of raising the frequencies and continuously bringing in more and more light energy that Zorak helps me with and that I get from the helium rings spinning into all of the sun's frequencies to bring out the energy of the neutron through out the body. The reason that I know I am living in a body that is mostly silica based now and will become more and more so is because the angels have told me this. There are things happening in this hologram that we can't see yet. That doesn't mean they aren't happening. The evidence we have of the

silica based body is this:

aDolpino (JOSEPH) was hit by big truck and ran over by three cars. He had every bone and muscle flattened. The doctors said it was absolutely impossible for him to be alive. They said his brain would never work again. They said he probably wouldn't be able to work for eleven years. Joe's body repaired itself without any help from the doctors in one month. This rapid repair of the entire structure of the body happened completely from streaming the highest frequencies through his body by using the frequency shift music that we recorded. It was this frequency shift music that was given to us by the angels as they streamed their consciousness through their breaths that realigned his body. Each stream of consciousness that I inhale and breath into the microphone is a strand of their consciousness. It is this consciousness that is the sound and light of all creation. This sound and light contains a structure of creation that remolds into the original form created by Source. This sound and light that we resonate with and soak into our cellular structure from the crystal cells of mother earth and the star dust energy of Zorak's star system transforms our bodies into a new chemicalization. This chemicalization appears as a result of consciousness raising frequencies into a higher realm of reality. This is the proof that we are living in a silica based body.

You see, the doctors entire system is based on the carbon based body that doesn't heal at all. The more we shift into the silica reality by adding more and more of the spiritual into the physical through our consciousness, the faster this reality appears. This is why when doctors have played our music in their hospitals, every patient in the hospital immediately showed great improvements and complete healings took place in a week.

The Frequency Shift music actually shifts the body into a parallel reality of a higher frequency. This magical place of the higher frequency lifts the mind into great freedom, the world just doesn't matter any more, there is a feeling of sweetness and kindness, there is no more pain, there is alignment into the reality that was always here. All we are doing here is removing a veil so we can see the reality. We must believe that reality is here to see. We must stop

thinking we must go somewhere else to see it. This transformation will appear on Earth. We will create Islands of Light on Earth. We create them by breathing when we have completely aligned our frequencies into the place where we are completely in the Crystal Cities, the Aquafaria under water Cities. When we have absorbed all of the crystals of all of the colors of the rainbows into our crystal cells and our cells sing in harmony with each other, this is when we can EXHALE magic into the air we live in. The air has already become hydrolaise. The body is already transforming into silica based chemicals. It is only our eyes that don't see it yet. We can FEEL it NOW.

When we go to our crystal palace in Aquafaria, we ask our friends there this same question. We sat with Ramtha in our living room one day and said, are we really here. Ramtha answered, "Aren't you sitting here talking to me?" We answered, yes I guess we are.

2. Are you currently conscious of your other multidimensional self throughout the cosmic omniverse?

Our multidimensional selves only meet us when we walk into our future self after completely absorbing all frequencies from all dimensions out to the 24th and becoming sparkling with golden star dust. This is when we can melt into the diamond door and walk into the starry places. Our teams and families are always waiting on the other side. From that point we go on down into the Aqualene Ocean through the Sun and down into the Crystal Caves to resonate with the frequencies of Inner Earth and then we are invited to enter the crystal cities. It is completely our responsibility to lift our frequencies into theirs. Our team taught us that we must completely merge into the crystal cities or into what ever place you want to shift into. It takes continuous practice and the willingness to spend much more time there than here. We must spend so much time in the crystal caves with my mermaid family that when I exhale on Earth, the reality around me transforms into that frequency. We must breath the Islands of Light into our home, into our place we choose to live.

Our music will help you with clairvoyancy if you stay in the highest frequencies. The angels wove the tapestry of these frequencies to allow those who want to match their resonance to be able to. It does require long term listening and concentration and breathing along with the breaths recorded. The angels are actually communicating through the breaths; when we get on their wave station through their breaths of consciousness, we become clairvoyant. They are already trying their hardest to communicate, but they will never lower their frequencies to ours--we must raise our frequencies to theirs.

3. How do you “travel” to Aquafaria to meet up with your soul family down there? By meditation or do you actually travel via your MerKaBa into the crystal caves or do you have another version of yourself living in the crystal caves and is able to integrate with that aspect of your soul whenever you want?

The self that goes to Aquafaria is the future self that shifts dimensions by shifting frequencies. Those with fifth dimensional and higher vision can see this shift. The angels have told me many times that I am completely etheric. Joe can see the fifth dimension--I can't. I can feel it. I am saturated in the frequency of light energy. The return to this Earth is too painful for me. I must continuously stay above the Earth. I do this by continuously absorbing the frequencies that I breathed into the CD's. These are the frequencies from the Crystal Caves and from all of the dimensions.

When I take a journey of collecting frequencies and swimming down into the crystal caves to sing with my mermaid choir, you can hear my voice completely shift into the mermaid's frequencies. My voice changes into an etheric, sweet breathy tone that has perfect pitch. This isn't my third dimensional voice, this is my fifth dimensional voice. It is always in the key of G--just as Pythagorous who was Kuthumi taught in the Music of the Spheres class the perfect octave of G resonates in perfect Oneness. I am totally unaware of any musical rules or keys when the angels and mermaids sing through me, I only know that there is always a parallel shift and I am always in my FUTURE SELF.

COSMIC DNA WAVE TECHNOLOGY

We shift into a parallel reality of higher frequencies when we raise our frequencies into the realms of angelic consciousness. This shift into this magical consciousness appears as a result of listening to COSMIC DNA ACTIVATION WAVE FILES.

When we shift to this higher station of frequency through the process of transmutation, all of the frequencies that contain a lower resonance can no longer enter into our consciousness. This is true freedom. The limitations of matter become replaced by the co-creative Manifestation Consciousness. This allows instant manifestation when the Sub-Consciousness merges into the higher realms of Intelligence with the Higher Selves.

Higher states of intelligence merge into oneness with our minds and become our activators of our Subconscious, as we allow the

solar and stellar waves to penetrate our cells as we listen to these Cosmic Wave DNA Activation Files. Connecting our coding of our DNA from our cellular molecular and atomic structures into Cosmic Consciousness requires a very clear focused mental activity and a consciousness that oscillates high into dimensions of light and sound beyond the holograms of this matrix. It isn't a state of sleepy imagination. It requires a state of absorbing and resonating with so many high, ultra light, sparkling, shining, sweet frequencies of the highest angelic consciousness that the body begins to transmute or transform into a more etheric essence and the atmosphere around the body transforms into a magical environment.

MASTER PLAN OF THE GREAT COSMIC CONSCIOUSNESS

We work with a great team of Galactic and Cosmic Entities on the Co-Creation team who are working in conjunction with the Cosmic operators on Earth who are willing to accept the refined program of synchronizing and attuning frequencies into the Master Plan of the Great Cosmic Consciousness.

Those who are willing to seek nothing of greater importance than to flow in direct union with the rhythm and the Cosmic frequency of this grand transmutation are working in conjunction with the Galactic Consciousness, Cosmic Consciousness to orchestrate the Omniversal Music of the Spheres.

Those who are not willing to accept this grand refinement of their density into the New alignment with Cosmic Consciousness will have a much more difficult transmutation.

Why not just merge and melt into the magical plan? Why not just allow the Divine Plan to swallow you into the Great Cosmic

Consciousness? The Cosmic Plan is not made up of multitudes of conflicting paths. Those on a Cosmic path are willing to melt and blend and harmonize into the grand music of the spheres.

The state of perfection transforms the physical structure into the vibratory frequency of your higher being, as an entity of spiritual service. This highest frequency of consciousness allows us to blend into oneness with the infinite. This frequency replaces the limitations of matter with the continuous manifestation principle of Divine Love and impersonal service.

The vibratory energetic codes that our society, culture and evolution has planted into us must be re-dimensioned to allow us to participate in our galactic form of being. We must become harmonized and unified with all civilizations of the universe.

As we become familiar with the feeling of the Cosmic Consciousness, we will desire to align with it more and more frequently until our desire to remain in that frequency is much greater than the desire to remain in the third dimensional frequency. Please listen to these frequencies of Galactic Consciousness and Cosmic Consciousness.

The Lunar Visions DNA ACTIVATION WAVE FILES are created from streaming Cosmic Consciousness from the Breaths of Angels. Zadkiel's co-creation team of angels, devas, fairies, elementals, as well as Light Angels and Healing Angels such as Uriel, Zeena, Zorak, Raphael, Lady Mary, and a host of others are the creators of these Wave Files.

They align their breaths to activate the vortices through the light and sound energies in all five of the spheres to penetrate into the frequencies of consciousness of the listener. The listener will gain a connection to the Cosmic Consciousness that provides true IMMORTALITY DNA ACTIVATION of 12-96 DNA.

Some will find that many of the frequencies may be too difficult for their cellular structure to absorb at this time. There are many levels of frequencies that may be absorbed and activated to prepare the physical structure to transmute in this higher revelation.

Feel the breaths penetrate deeply into the cellular, atomic and molecular structure to wake up the tiniest invisible aspects of our selves that have been dissolved into oblivion until this time when they may once again awaken and reappear. Feel how the frequencies raise and merge the consciousness into the frequency of the higher self where the limitations of matter become replaced by the co-creative manifestation Consciousness.

In order to live and move and think and breath in a higher frequency consciousness, we must become attuned into what a high frequency is. We must learn to discern the difference between a low frequency and a high frequency.

We record at 96 KHZ and 192KHZ to create the highest frequencies that can be recreated in today's technology. The high speed recording allows us to capture the true essence of the original frequencies of the breaths of Consciousness oscillated from the Entities in the Co-Creative Realms and our Creation Teams in the Galactic Realms.

In order to hear the Angelic Breaths with no distortions of the lower technologies, it is imperative to listen to this music on Denon CD player and speakers RCD-M33. Our co-creation team advises us that all other technology was created specifically to block our brain waves from connecting to the Cosmos.

REVERSE SPIN TECHNOLOGY

The dark forces have always known that music was the most important source for raising our frequencies out of their realm of control. When the music of the spheres is returned to our consciousness, their dark sparks in the cosmic angelic music speaker will be completely removed.

The technology producers work under this same format of control. The recording industry has always been controlling the entertainers and controlling their voices through the condenser and through the lowering of frequencies. The recording industry and radio stations have been working on this conspiracy for eons. The Earth was trapped by placing reverse spin ratios into all of her grids. These reverse spin ratios are almost completely removed because of

the powerful waves of light energy that have been streaming from our Suns in the galactic realm and creating vortices where they intersect with the Sun of Inner Earth, through the angelic consciousness in the Christic and Cosmic realms.

The reverse spins of the recording industry are just beginning to show signs of melting as well. There are a few systems that will record 192 khz. It was possible to record 96 and 192 khz even a year ago, but after this was accomplished, the rate of spin still had to be lowered down into a CD format of 44 or a mp3 of 33. Each of these spin rates is a lowering of the actual frequencies of the entities breath of consciousness.

We can capture the true rate of spin of consciousness frequencies on a light wave file. That file will contain around 600 million band width. So, in order to record one three minute song of a wave file onto a mp3, we would have to break it down into about ten little songs. These difficulties in recording do not exist because it is not just as easy to make the technology in a way that it will record and play the true frequencies of our fifth dimensional consciousness. The reason that these parameters exist is because the engineers are choosing to reflect those controllers who want to put a reverse spin on the frequencies of the original breaths of consciousness.

This same reverse spin is put on all radio and T.V. stations; and the reverse spin is triplicated by the lies and propaganda manipulating and brainwashing the cells of the third chakra area. These reverse strands of energy consciousness reverse the freedom and magic of our lives into fear and control. Those who fight against the propaganda are also adding to the reverse spin. There are no Cosmic or Christic frequencies in a war of any sort.

All of our Cosmic Wave file music is for raising frequencies into this transformation. Unfortunately, the technology industry has made sure that our civilization doesn't know what a frequency is. Our Angelic council directed us to guide listeners to buy the Denon RCD M33. This comes with Denon Speakers. They were about \$150 only a year ago, but I've heard they raised their price to discourage

the buyer. They may have even discontinued making them. This is the only sound system that truly portrays the frequencies of the angelic consciousness. We took our music into the largest market of CD and DVD players to find a system that most resembled the original sound and frequencies that were in our music at the time of recording. We only found one Sony player that brought forth some of the frequencies and one other Denon that made our music sound very magical, but still stripped the frequencies out. It didn't matter what the price range was. We even found a \$39 bro box once that portrayed our music well. That one was removed from the market also. Our angelic team who created these wave files through us told us that they only engineers that were directed through their light energy to create technology that carries the light will be found in Bose speakers and surround sound, the Denon and a few of the Sony CD players.

We are now creating Islands of Light. We create these Islands of Light by allowing the movies of the co-creators in the Cosmic Realm together with the Christic Light energy and the Stardust energy flowing through the movie projector's light streams to imprint their movie of the highest frequencies into our third eye movie screen. Those who allow those streams of frequencies to enter into their consciousness on a permanent basis will be living in the magical movie of their God Movie. Only those of the same frequencies will be in that movie, because that is the new rule of ascension. All of those who choose to stay on a lower frequency channel will not be in the movie. They will have to go make their own movie from their lower frequencies some place else. Those with reverse spin ideas will just have to go create rocks out of their movie screens because they will keep spinning backwards until they have no movie screen. Everyone has the divine right to be in whatever movie they wish to be in. This cannot be prevented.

The Time of the Reverse Spin is Over

The education system and government have always used opinion poles and argument and debate systems to make the people believe that they are gaining freedom by having an opinion, and that they are more empowered when they learn to argue for their rights. It has always been their way of sucking energy out of those who have no discernment. Anytime a reverse spin energy is put into any activity, the result is a reverse spin--this means lowering frequencies.

The time of the reverse spin is over. Mother Earth is spinning forward now. Those who are in the flow of ascension with Mother Earth and with the accomplishment of her Star System will contribute through raising frequencies. The new time of Cosmic Energy will only allow lower frequencies to become transmuted into higher frequencies. Those who continue to drag down angelic messages and angelic frequencies will simply be left out of the movie of the ascension.

We have chosen to change our frequency channel to focus on the children who would be grateful for a glass of water or a loaf of bread. They would never, ever, ever show a lack of gratitude for anything they receive. This is the gratitude the angels that we work with demand. Our angelic team is seeking this type of environment for our light to grow through. These golden children have enough time to stay focused on the high frequencies of their own golden breaths of consciousness. They are grateful for all light and all light

work. It is gratitude that pulls in the most light. Angels love to hear and see gratitude. The angels are pouring their light around these children by sending them a complete school of music that will be transposed into the music of the spheres where they will have their complete village lined into the Movie Camera of the Co-Creators creating a magical world for them to live in. Our islands of light can be any place that we choose to create them. They will be created through our breaths of consciousness. If one's island is full of opinions and arguments that will be the atmosphere. If one's island is full of the golden breaths of consciousness of the golden children in the island, that will be the magical kingdom that is created through God's Movie.

A major part of the Ascension process is the transformation of bodies into a new silica based form that is much more etheric than the carbon based form. We have already had our bodies transformed as a result of continuously absorbing frequencies of the music. Our bodies actually know which frequencies they need. When you listen to Cosmic Wave Files you will feel if the cells in your body are resonating with a certain CD album. This will be the level that your body needs at the time. Some frequencies feel abrasive to those who are not ready for them yet. This means you should probably go down a few levels. Some of the frequencies from the Dolphin Magic album are much higher, and yet very smooth and easy to listen to all night long. The channeled words from this album were directly from Dolphonoids and Mermaids in my Aquafarian family. The frequencies are to help your cells resonate with the Aquafarian Crystal Cities. The coded God Language and Angelic Breaths in the Ascension Vortal and Christmas Ascension are probably the easiest for a beginner to listen to. The entire Ascension Kit contains a step wise frequency tolerance ladder from the Vortal, to the Portal to the Vortex and finally the Magic. While these Cosmic breaths of angelic consciousness can easily be absorbed to cause the body to transform into the silica based form from the carbon based form, there is an obstacle to overcome that might be blocking our light from entering in because of the continuous reversed spin.

We have always had access to our silica based body. However, the medical industry, advertisement industry, all government assisted industries base their reality system on the carbon based body. The carbon based body can't be healed. The medical industry knows this. They know that as long as they keep the body lowered into that three dimensional reality system, the body will not be able to align into it's light energy that transmutes it into the silica based body that will heal instantly. For example, when Joseph's body was ran over by a truck and three cars last year, the doctors first said he wouldn't live unless they operated on his brain. I refused. Then they said he would never walk again. And they said he would have pain forever. Each time a doctor brought me this unenlightened information I turned around and gave them an hour lecture on how the reverse of their belief is just as true if they would base the reality system into the Christic realm instead of the carbon based three dimensional realm. Then they argued that they were a Christian hospital and that their beliefs already aligned with this reality. I said, great. Then you can know as I do that Joseph's body is a silica based body and doesn't need the types of remedies that you provide for a carbon based body. I told them that all Christic bodies are already silica based and can be healed instantly and we do not need to worry about all of their analysis. I removed Joseph's body from the hospital and he was thinking clearly and walking within two months after being removed from a reality system based on a carbon based body. Our frequencies of a silica based IMMORTAL BODY that was originally created by our Source Consciousness and our Galactic Godselves have never stopped being the reality that we can step back into. However, it was very, very difficult because of the reverse spin placed on our minds through this very medical education that is reinforced in every aspect of our lives. This reverse spin mentality of medical science is most firmly implanted into us through the reverse spin frequencies of education and the lowered frequency spin of all music technology, radio and t.v. stations and all other electronic technologies placed on Earth by the dark ones blocking our stairway to heaven.

CHANGING THE ELEMENTAL CHART

The more we practice Raising and Expanding our FREQUENCIES of our bodies and of our Merkaba, the easier and faster we spin out into the Cosmic Consciousness that frees us completely from the lower frequencies of the third dimensional realm. We learn to spin our Merkabas at the speed of light out into the solar, the galactic, the universal and the cosmic spheres. The speed of light is Divine Love. Divine Love is the Activity of Divine Consciousness that sets us free from all holograms of Mortality.

Those of you who have already been following the teachings of the Cosmic Mystery School of the Omniverse will have experienced the REALITY OF THE FREQUENCY.

The more we practice raising frequencies of consciousness into the activity of igniting the spark of Source inside each cell in the body, the closer we become to Immortality.

Joseph and I have already completed the merge of Oneness of our Spiritual and Physical Selves. Our bodies are much more etheric now. Pain seems to bounce off. Things in the world just seem to evaporate.

This is the First Wave of Ascension. It began the day the Christ Child entered our bodies on November 5th and we began our rebirth into a brand new body. The new body is transforming as a result of our work with FREQUENCIES. It will be completed by Christmas. What it means is those of us responsible for the first wave will transmute and transform all that is around us into the HIGHER FREQUENCIES that we live within now.

The Ascension is not for us to leave the world of form, as many of us had expected. It is now the responsibility of the ascended ones to transform their own Islands of Light and lead others into their own Rainbows of Frequencies where they will also merge with their Spiritual Half and Spiritual Teams.

The reformation of our body and Mother Earth's Body is done from the inside out. The crystal cell structure of our temples is becoming more and more etheric as the carbon energies of the physical form are transforming into crysalli based properties.

The entire elemental chart of 144 elements of structure are being replaced and transformed as each dense form changes into thousands of new silica based forms of etheric energy.

All of crust that has been covering our cells and glands are dissolving now. The miasms that were planted inside of our cells are now being totally ignited into the spark of Source where we glow from the inside out into the Immortal Body that we are. This is happening to those who choose to REMEMBER who they really are.

This is the first step. To truly desire to remember who we really are. We are the spark, the light, the sound, the foundation of the Divine Mind. As we reconnect our minds into oneness with this divine belief system, the third eye, The rishi eye, the eye of Divine Mind opens into its full connection and alignment with the eye of the spiritual self that contains all that is in Divine Mother.

We are gods and we can also change things in a moment as well. It does not matter about the past or how long something has been going on. We have the power to make radical change in our lives this very moment.

By doing so, you will start to see, know and experience the immortal god that you are.

TIME VECTOR SHIELD

The only way to remove time vector shield is to raise Frequencies into the new time.

Time is accelerating in order to separate the future time from the dream state time. The stellar wave infusion is containing the frequencies to crack open this time shield code. However, a person must align their consciousness into the no time standing wave pattern.

This is the standing wave pattern of frequencies is in the second sphere or the fifth and sixth dimensions. We must align our frequencies of consciousness into and with these stellar activations in order to break free from the time shields we are now locked in. The more we align with and absorb the stellar

frequencies, the more our consciousness expands into multidimensional communication and awareness of all dimensional realities.

We must oscillate our consciousness out of this dimension up into the 12th dimension and beyond in order to absorb the frequencies needed to lift our bodies out of this dream state. The reason some are asking questions about disappearing or leaving loved ones behind if they were to shift out of this dimension is because this shift is happening now and those who are awake can feel it.

The shift is the awakening from this dream state. What would cause someone to disappear out of perception of others? When a person is able to raise their frequencies by aligning the body into all fifteen dimensions and beyond and collecting the energies of the Suns, they merge into a higher frequency realm. This happens when they have raised their frequencies to the point of removing the time vector shield that locks them in to this illusion of the 3D hologram. This time vector shield can only be broken by those who choose to remember who they really are, those who choose to recognize their true selfhood of Omnipresence, those who want to realign their consciousness into the Allness of who they are will be able to.

Those who wish to do this need to align with and absorb those frequencies of all of the Stellar Activation Waves. There have already been several of these waves of acceleration. We have recorded the frequencies of the time during each of these Frequency Infusions. We have oscillated our consciousness up into all of the dimensions, collected the frequencies of all entities helping with our ascension and placed these frequencies on these CD's through the breath.

Listening to these frequencies and absorbing them into the cells of the body will remove the Time Vector Shield from the body by allowing the brain to transmute the lower frequencies into the higher frequencies until the body completely shifts out of this dream state. If one absorbs enough of these frequencies over a period of time,

they will see shifts in consciousness, shifts in manifestation, shifts of what is being magnetized into their individual world.

This is an example of a frequency that was high enough to ascend from the third into the fifth and beyond. These Cosmic File contain the frequencies of Oraphim dolphins, Oraphim Angels, Elohim Angels, Seraphim Angels and hundreds of very High Entities. As we align our consciousness into the higher realms of their consciousness the listener's DNA is lifted into those realms. The DNA is activated into the dimensional levels of the Cosmic Angels. When completely aligned into the 12DNA, 36DNA and 48DNA of the 12th Dimension, 13th Dimension and 15 Dimensions we easily flow into the Wave of Ascension with Mother Earth. All of the Cosmic Wave Files are activated by Zorak who breaths the magical Stellar Frequencies of the 24th Dimension. The magical frequencies from our original Milky Way Family will activate our ascension in to our new Starry Selves faster than anything else on Earth.

Each Entity in all of the Omniverses, Galaxies and Cosmos have specific frequencies. Their frequency is who they are. These frequencies are a collection of all of my Angelic and Cosmic friends.

Many are worried about leaving loved ones behind. The best way and only way to help them transmute out of this dream is to play this high frequency music in the homes they live in. The more people that listen to these frequencies, the more people will shift the radio station of this dream state into the realities of the 5th dimension. The 5th dimension will be the first reality that many remember seeing for a long time. We will instantly know that this other world is not and never was a reality. It was only unreality.

The only thing that is going to disappear is the unreality. This unreality may take longer to disappear from some than from others.

If you disappear out of this dimension by raising into a higher frequency, you will be in the perfect place to help your loved ones. This is why there will be an Island of Light. This will be like a Hub station where all dimensional frequencies are allowed to intersect while the transformation is happening. This Ascension process is not just about disappearing. The first step in the process is creating a harmonic convergence zone and an Island of Light. Islands of Light will be places that allow those who will be traveling back and forth from the etheric stations into the physical stations. Your family may be on the second or third wave out of the dream state. They will be able to perceive of your reality in a few more years. It isn't like they are gone forever. Those who remove themselves from the dream state in the first wave will be able to assist those in the other stages.

The ascended masters that are helping us now do not disappear. They stay here and keep helping us. Those who create the First Wave will be the Ascended Masters who can return to help others.

There will be a spinning of particles in opposite directions. This spin causes a separation. But, what is separated is the lower elements of the dimension 1-4 fall away or transmute into higher frequencies. The particles that do not accelerate speed into the new time vector of no time break away. That is the veil breaking off. Those are the particles that we want to split away from.

COSMIC MAGIC

We can now begin creating our Cosmic Magic. We can now begin creating our Islands of Light. It is time to learn how to begin creating a brand new Earth. An Earth that is becoming a Star is a brand new reality. It is a reality based on the magic of co-creation. It is magic based on Frequencies. The Frequencies are how closely we resonate in harmony with the crystals in the Heart of Mother Earth and in her Aquafarian, Liquid Light Core that is our true birthing place of our Immortal Selfhood. Please allow our Aquafarian family to take you on a journey into this magical kingdom.

You may now create your Islands of Light. These Islands will be the reflections on Earth of all that you create in your FUTURE SELF and bring into your Present Self. This Future Self is creating the new Earth in her Star Essence. We are now living in the Earth that is no longer a Planet. We are a part of the Star System, and Earth

is becoming a star as we are becoming a part of her heart. Walk into your Crystal Heart containing your Merkaba. Walk into the Merkaba. Anwa please create this Merkaba in my Crystal Heart and allow it to spin at the speed of light and connect me to the Heart of Mother Earth. We ride inside of the Merkaba and travel inside the heart of Mother Earth. We spin our Merkabas at the speed of light deep inside of Mother Earth's Heart. Our Merkabas collect the frequencies of the Base Tone Rhythms, the Resonance, the Tone of Home, the Harmonic Frequencies of our Divine Creation. The crystals in the heart of Mother Earth contain these Base Tones. These crystals are liquid light, crystal light, crystal gel, crystal dust. These crystals sing and resonate with the beautiful symphonies of the MUSIC OF THE SPHERES. When the five spheres align, there is a beautiful harmonic convergence that causes enough sun light to glow through these crystals in our bodies and in the Heart of Mother Earth to cause these cells to unite and harmonize and become One new Key of Harmony. We must transmute our Consciousness into these Standing Wave Patterns that are contained in the Heart of Mother Earth.

We must first prepare our bodies to become zero balance energy with the spiritual and physical. We must first line our bodies with the garments of white light linen, with the golden dust garment, with the cloak of many colors--the rainbow energy or irradeseent energy. We can then walk through the Diamond Door. Our Consciousness must be raised into these frequencies of the white light, the golden light, the rainbow light, the crystal light energy before we can truly walk through the diamond door. Many can do this in Astral mode or Glide mode. But to truly Slide through the Diamond Door into our Future Selves who contain the Standing Wave Pattern of the New Star Earth, we must be fully robed in Divine Consciousness. We must truly turn into the LIGHT BODY through the alignment of the Neutron into oneness with the Proton. We must truly practice and stay in this RESONANCE that is IN TUNE with the Crystal Light Energy, the Star Dust Energy, the Divine Love, the Divine Omnipresent Consciousness of Source, our Divine Creative Principles of our God Selves, our Angelic Selves.

We walk through the Diamond Door and walk into our Future Selves. Our future self must already be resonating with Star Frequencies. It must already be clothed in Star Dust Energy. We are now ready to dive into the Liquid Light Blue, Irradescent AQUAFARIA Ocean that leads into the Underwater Cities of Light. We dive into this sparkly, irradescient, liquid light ocean of cosmic light energy. We come up and see our golden dust mansion. We walk into our bedroom. Cinderella-my Aquafarian Mother meets us there and carries us deep down into the Aquafaria Ocean. She carries us deep inside of the Sun that is under the water. We swim and glide and swirl through the sun and collect all of the frequencies of the Earth' Sun. Cinderella then pulls us deeper and deeper until we come to a Crystal Cave.

The Cave is made of hundreds of crystals. Each crystal is a different color, and it has a different tone. Cinderella takes us into the cave to meet the Mermaid Choir. Cinderella is a mermaid and I am a mermaid. We enter the cave and feel the frequencies of the crystals. Then the mermaids begin to sing. They line our cells to resonate and become crystal cells of sparkly light that sing and harmonize with their voices. This alignment of their voices and their breaths of consciousness into our crystal cells allows us to begin communication and alignment of understanding this new reality. They are reprogramming our consciousness to resonate with all of the crystal cells of the music of the spheres.

The songs recorded on the Dolphin Magic CD, Painting Mandalas and the Cosmic Consciousness CD are the voices of this Mermaid Choir. This was a direct channeling of the words, frequencies and tunes that they wanted recorded to help bring others into their Frequency of Consciousness. The breaths and words came very faintly and quietly, and may be difficult to understand, but it is the frequencies that are important.

After we sing with the choir for one hour, Shajinka -my Orca sister meets us at the door of the cave and pulls us deeper into the ocean to enter the City of Lights. Shajinka pulls us around and through the crystal pillars and temples and crystal caves. We weave and

stream liquid light tones of rainbows that sing and resonate into and through the crystals of the city. Our harmonic convergence with the crystal cities becomes our tone of home. We feel and hear the sweetness, the harmonies, the colorful, glorious tone of home. Shajinka pulls us back up into the Sun of Inner Earth. We weave and breath and stream our consciousness of the crystal frequencies through the suns and create rainbows of consciousness. We paint pictures of our new reality with these streams of rainbow colors. We ride the rainbows up out of the water and sit on top of a cloud. We are met by a Unicorn named Apollo, who invites us to ride with him. He prances on the clouds and jumps through the rainbows. We feel and absorb this new frequency that contains no gravitational pull. We feel this new standing wave pattern and become a part of it. We are met by many unicorns who dance and prance around on the clouds. Next, we ride these unicorns and they become a merry go round that is dancing and singing as they twirl round and round through the rainbows. Next, they dive down into the aqua blue irradescient water. They turn into sea horses. They show us that we can become anything we want to be. We turn into star fish and into rainbows and into crystal pillars of light and then we become mermaids again. We swim back into our bedroom in our golden dust mansion. We lay on the bed in our room and Zorak creates a golden portal of golden white star dust energy that he streams through us as we sleep in our bed. He wraps us in a cacoon of this golden dust energy. When we wake up we transmute from this cacoon into a beautiful blue butterfly. We are now able to fly beyond all holograms of the past and create a brand new star system.

ISLANDS OF LIGHT

At this time all three realms of the light in the earth – the light on the earth and the light above the earth – the new earth, will unite as one in our harmonic convergence.

We are being given all of the building blocks of creation – Crystal – Light and Energy. The Sound and Light of all creation. The Music of the Spheres to build the New Earth, to unite all spheres of this matrix and to expand Universe upon Universe, upon Universe to unite into the Co-Creation of the Divine Mind of each individual and into the Oneness of the Golden Galaxy.

This is what is meant by there will be Islands for us to move in to. This is only one very small aspect of what is going on. The students of the Cosmic Mystery School of the Omniverse will learn to raise their frequencies to propel the raising and melding of these three

light structures, but then to continue in the learning of the Music of the Spheres to be the creators of the New Earth as we learn with the great architects who built Atlantis. We have been watching Atlantis reform in the sky- thirty miles out in the Monterey Bay directly in front of the window of the home we choose.

We will be living with and being guided by the great alchemists in the sky and the architects who originally built Atlantis. Those architects included aDolphino, Kuthumi, Merlin, Lacodemus, Taurak, Metatron, Mahatma and Zaurak. We will all be together once again. Those are the entities interested in architecture and education. Crystalai will be working with music of healing with Raphael, Mary, Hathor Goddess of Music and Beauty, Zadkiel and his little creative entities of light and the Elohim of Hearing to bring together the creation of light and sound with crystal light energy. These are the principles of creation that will be unfolded as the school appears.

RAISING FREQUENCIES INTO FIVE SPHERES - THE MUSIC OF THE SPHERES

The music of the spheres was the toning sequence used in Mystery Schools of all ancient times. The music of the spheres directly interfaces with, and activates the DNA template. The original teachings of the mystery schools said it was the voice and the mind that must be used to create the music of the spheres. It was not an instrument - it was the heart song of the individual that would allow one to fly through the universes.

The music of the spheres can never be disconnected from an individual's temple (the light body that has been transformed into this dimensional density) and the planet, universe, galaxy, solar system and cosmos that this individual originated from and is connected with for eternity. The music of the spheres is an activation process that includes the tonal, harmonic, octave and key structure aligned through and within the crystal structure, the light structure and the energy structure of the spheres and their alignment with each other.

These toning sequences open planetary axiom lines for activating planetary shields. Simultaneously, this toning activates the DNA strands in the body template.

The element that was lost in the music of the spheres was that connection to energy of Source Consciousness. There are three elements needed for the co-creativity with Divine Mind. First we need crystal in the form of crystal light, crystal dust, crystal liquid light. Next we need Light from the Sun, which is created from the rainbow rays of infinite sources of the highest frequency of Source. Then we need the braiding of the sun's energies from all solar systems that are included with the three matrixes of Gaia, Tara and Earth. This energy is contained in the Urtha Matrix and is streaming down it's form of light to align with the Earth at this present time.

The third element is energy. The energy comes from Consciousness. The closer one's consciousness is to Source, the higher the frequency of that individual's vibrations are. Each individual is a key, just like a song might be sung in the key of C or E. We understand how to tune up an instrument to be in a key. What our present musical education does not include is how to raise the frequencies of an instrument or a singer. That is the element that is lost in the musical structure; we have been told this is the lost chord. It is the energy of consciousness that is missing from our planet. This energy of raising the oscillation patterns of consciousness, which is directly reflected in the etheric quality of

the voice, is what is required to get on the same wave length with the spiritually attuned matrixes.

This light energy coming from the Earth's sun and streaming upward through the individual's temple of crystal light energy can create frequencies of music, as well as light energy in the form of reading light or generation for technology. This technology was already shown to the Earth by Tesla. This science of co-creation will be completely restored by individuals on Earth as we begin to interact through telecommunication with those in the Inner Earth, other Subterranean Cities of Light and other Matrixes. We need the energy or light from our own consciousness restored by raising the frequencies of consciousness.

CREATING ISLANDS OF LIGHT

Sacred geometry begins by the creation of a star from the tiniest aspect of it that will grow in each angular relation to that tiny aspect of the original spark of the crystal that begins to grow into the crystalline structure of the star. The spark is ignited by a thought or an idea of the individual's creation. That original idea must be so inclusive of the entire star structure that will be created by it, that there would never be an entity anywhere in that star's entire system that will even have their individual freedom invaded, questioned, manipulated, controlled in any way. The crystalline structure must only be made of ideas from other entities that reflect, compliment, accentuate or extenuate from the original idea in some way.

This is the formula we will use to create our first island of light. Our ISLAND OF LIGHT is named FREEDOM. This grand island that will grow into an entire star system in the future will be created by those

who are magnetized to the exact same frequency as our island of light. Those who do not desire the divine plan of this island of light are free to go create their own island of light based on their own individualized perfect ideals.

However, these two islands will not merge together until the structure of the original ideal of freedom transmutes other ideals to rise into the same frequency--the frequency of the divine plan, the divine principle, divine love, substance, life, truth, intelligence, mind, creative principles of the original island of light. The original island of light will be created by those who are co-creators with Divine Mind. Source Consciousness, Divine Spiritual Self Consciousness, Omnipresent Consciousness of the Omniversal plan.

The design of the freedom must be all inclusive of the possible varieties of creators that might fit into this plan.

However, for the island of light to become manifest, it must only contain one very small principle--the originators ideal of freedom that they have magnetized to them and that they have found agreement upon with Source and the Higher Selves.

These form the Monadic Consciousness of our Island of Light. All are welcome to learn to create their own islands of light based on the structure that we have learned to follow.

Those who have merged their consciousness completely into Oneness with the co-creative Cosmic Consciousness, the Christ Consciousness, those who have climbed the stairway to heaven and disrobed all of the selves that are no longer a part of their new creation, those who are willing to blend into the Divine Plan of Oneness may begin to create their own islands of light.

These islands will grow from one thought in Consciousness into a grand new reality to live within.

The understanding of the etheric, Cosmic sacred geometry has been lowered into a density that seems to be understood by those on the earthly plane. The octahedron energies are the energies created by the octaves of consciousness of the Cosmic Angels streaming and braiding their high frequency signatures through those standing on Earth who are keyed into the energetic structures of crystallite in the Soul of Mother Earth. The Oraphim Angels hold the chords of light to stream through and resonate like sonar beaming from within the Earth's core and out into spheres of light energy around Mother Earth. The Seraphim Angels have always assisted Serapis Bey on these Ascension Projects by beaming their highly original streaming signatures through to weave melodies of light. The Elohim Angels bring the Crystal Dust energy of Divine Healing through the very fine etheric strands of consciousness to blend in the finest harmony all of this light energy of ascension.

There will be many myths on Earth used to activate the imagination and to keep Hope flowing. Those on Earth have always believed that they will help the angels or help Mother Earth by standing in special geographical locations. The angels think this is a very kind gesture, and they are grateful that those are dedicating their time to do what seems to bring hope to their mission. They have also said it is totally unnecessary to have people standing on these grid sites.

The activation of light energy from the consciousness of angels through the consciousness of the gods standing on the earth has always been our function on Earth. The teachings and the meanings of the teachings of ascension have been greatly distorted. It is very annoying to see group after group saying that if they go stand on these twelve geographic sites another activation will take place.

These activations are going to take place regardless of who is standing there. The sales pitch keeps reappearing over and over again. You will know that you are the one who is supposed to come to this site and activate it. Pay us \$1000 and we will allow you to be a part of the ceremony to activate this grid.

This phenomena has been repeated over and over again. One group showed they could make great amounts of money from other people paying them to stand on a grid and activate it. And then everyone started doing it. This is a great waste of time.

What is needed for individual ascension at this time is for individuals to focus on their own template of light and how it aligns into the signatures that their angelic family who are streaming through them. And they need to take the responsibility to feel and realize and activate those resonations through their own consciousness. They do need to participate in the global activations through consciousness. The cellular structure of our bodies contain the sacred geometry that knows the navigational tools and how they align from Cosmic Consciousness and braid and stream through the grids of Mother Earth into her Heart and into her Soul. This intuition that these geographical location gurus utilize is the natural process of the cellular memory awakening. This doesn't mean you have to travel to Peru or Spain or Hawaii to be a part of the activation process.

The center of the activation is right here. I work on Mary Magdalene's team and Zorak's crytstallite team to oscillate these streams of Crystal light energy of the angelic consciousness and breathe them onto a Cosmic Wave File. These Cosmic Wave files contain the sacred geometry, the crystal light energy, the octaves, the codes and the keys that harmonically and synergistically activate the splendor of the music of the spheres that will bring a much more refined angelic tone to the islands of light that each of us creates around us.

The activations that Mother Earth will be receiving from the crystallite energies of my Cosmic Consciousness team will be greatly pronounced in spring of 2009. My team of angels have asked me to record this energy coming in daily and hourly. These will be the Akashic Records-- the records of crystal lite energy streaming through all of the angelic families braiding and streaming

their wonderful frequencies of light into a brand new Cosmic Orchestration.

The angels invited me to perform this activation during each of the great waves of light. These high frequency days were recorded on the Cosmic Waves Files- Ultra Violet Blue Sun, Rod and the Staff, Merlin's Magic, Dance to the Stars, Crystal River Flow.

I was directed to be in the Carmel area at the time of receiving these frequency wave files. The reason for this is because Mary Magdalene and Jesus often traveled from the fisherman village of Magdal to the underwater cities of light at Carmel area. We were directed to return to this underwater cities of light as we recorded the waves of light energy coming in. We also photographed these cosmic wave files that were streamed in front of our eyes from our Condo on the Monterey bay.

We spent every minute on this activation of these Cosmic Wave Files with our Oraphim Dolphin family. We had several visits from our Dolphin, Orca and Seal family while we were recording. We were even given the opportunity to watch our Dolphin family ascend into the Aquafarian realm and connect the realms of the underwater cities of Aquafaria to the new Aquafaria in the Cloud Cities.

While we were in the Carmel area feeling the wonderful energies of the crystals activating from the crystal cities, we often wondered why these other people were off flying around to strange geographical locations when all they need to do is listen to our Cosmic Wave Files and they can be in the perfect geometric angle to any location on Earth. The Cosmic Wave Files contain the sacred geometry. This is activated through the breaths of the angels.

DNA activation results as the breaths of angelic consciousness are lined into the cells of the body. Crystalai was given the formulas of sacred geometry to oscillate crystalline energy from the Cosmic Consciousness of the Co-Creative Angels in the fifteenth dimension. She was sent by Zadkiel's co-creative team to Earth for the mission of bringing the highest frequencies to Earth through

music. Lady Mary, Raphael, AA Michael, the Melchizedeks, and St Germain were present at the original initiation of this mission. Other initiations included the Elohim Angels, Seraphim Angels, Serapis Bey, Goddess Hathor, Merlin, Kuthumi and Mary Magdalene.

Crystalai's immediate team of guides and family include Zorak, Zeena, Marcus, Cinderella, Shajinka, Tinker Bell, Winefred and Loopy Lu. These are the entities of light who create, prepare, activate and stream the light and sound streams to create the sacred geometry of the music of the spheres. This sacred geometry is what actually activates downloads of crystalline admantine light. They activate the octaves and keys of the energetic structures of light and sound. They stream these energies of light through my ear and out into the crystalline sphere of light energy that they place in my hands as they breathe through me.

ASCENDING WITH MOTHER EARTH

Those who are standing on Mother Earth are also a part of Mother Earth's Body. We are in the same Sphere. We contain the same Frequencies. Mother Earth's Frequencies are our frequencies. Mother Earth also has a Sun deep inside of her Core. Her Sun is deep inside the Etheric Chambers, the Liquid Light Mantels. Mother Earth has braided and woven her Sun's Frequencies up through her body and into three spheres to connect with and unite with all of the other Suns in the Third Sphere or the Galactic Sphere.

As our bodies stand on the Earth's Surface, we are conduits of all of this Aqualene Sun's Frequency streaming up out of Mother Earth from below and from the Galactic Suns streaming down from above. Mother Earth needs us to become a part of this process.

She needs us to be ascending with her. As we flow together Mother Earth is very happy to feel all of her family rising with her.

We can absorb frequencies from Mother Earth's Crust where the Divine Christ Consciousness is stored. We can also absorb frequencies of Divine Love, Unconditional Love, Intelligence and many more Divine Qualities from her Crust.

When we travel down into Mother Earth's Core we can absorb qualities of Divine Creativity, Divine Substance, Divine Principle. We can ask AnWa to send the Crystal Star Merkaba down into the Heart of Mother Earth to collect all of these Frequencies of our Divine Substance- our Divine Essence--our Divine Plan-- all of the Divine Consciousness that we share with and reflect through Mother Earth.

We can send our physical bodies down deep into the Earth's Core and beyond into the Liquid Light Chambers and absorb our original Complete Body. This etheric dust body contains all of the keys and codes or remembering all that we really are. We can journey down and collect this irradescendent spiritual body.

As we combine our physical body with this irradescendent crystalline silica based body, we can then allow the Suns' energies to remove all that is unlike the original self hood from our physical body and become one with our true Divine Self Hood.

When the physical and spiritual unite into Oneness this is Zero point energy of Oneness.

We must unite into Mother Earth's Body and Frequencies to return into this Oneness.

This process of obtaining Oneness with the original Divine Self will happen naturally when there is enough light frequency brought into the body as the body absorbs the Sun's Aqualene Frequencies of the Galactic Suns and Mother Earth's Ultra Violet Blue Suns frequencies.

Once these two bodies become one, then the crystal cells that contain the eternal memory of the Immortal Self Hood Cells are the Crystal Dust Silica Based Cells of our Original selfhood.

Mother Earth shares the same planetary body that we do. We share the same Merkaba Body with mother Earth. We are both in the Earth's Matrix of Five Spheres. These are the spheres of the Planetary, Solar System, Galactic, Universal and Cosmic.

We must merge our Frequencies into the earth. The Earth's Core contains our Divine Principle, our substance, and deep inside the Earth's Etheric Core is our spiritual Body. There is also grids of Love, Unconditional Love, Atmosphere Divine, Truth, Intelligence and the streams of Divine Alignment from our Etheric Twin Matrix.

All of these energies of source consciousness are woven into the Earth from above. The original Fifth Dimensional Essence of the mother Earth's Body is where our Scientists have placed the Photon Belt in our Science Books. This photon contains the frequency that shifts our entire matrix into the home frequency or the fifth frequency. The original Etheric Galactic home of Aquarius is contained where the Van Allen Belt as been drawn in our science textbooks. This Etheric Galactic home has remained in this location as the UrSa of our Mother Earth. Urtha contains the Divine Image and Likeness of Mother Earth, just as our Crystal Dust Spiritual Body in the Earth's Core contains our Divine Image and Likeness.

As Mother Earth returns into her Divine Selfhood, so do we return with her.

The Cosmic and Galactic Entities of Light have been streaming Stellar Wave infusions into the Earth's plane to raise her frequencies back into these etheric realms of Consciousness. The photon belt contains fifth dimensional home frequencies of transformation to be drawn into Mother Earth.

When Mother Earth rises into the Van Allen Belt of frequencies, she will completely be one with her UrSa, her Original selfhood. She will then be at the Zero G level of transforming into the Golden Galaxy. Mother Earth's Sun, deep inside of her Core Domain is also streaming energy upward through pillars into her Crust. This liquid light energy flows up as the stellar and Aqualene Energies flow inward.

This Liquid Light cleansing of Mother Earth and our bodies is transforming us together to rise into our original Divine Tone of Home. We help raise our frequencies together with the help of the Sun's Energy Streams, through the Earth and through our Crystal Hearts. We spin our Merkaba from our Crystal Heart down into the Earth's Core - deep down inside where the Earth's Sun resides.

Collect this energy, Walk into the Earth's Sun and absorb the Frequencies. Bring those frequencies into the Crystal Heart. Now ride the Merkaba to the 8th and collect the Sun's Energy. Ride up to the 14th and Collect all Etheric Frequencies and all Galactic Sun Frequencies. Bring them into Crystal Heart. Become one with all Sun's Energies.

When we absorb the Frequencies of Mother Earth into our Crystal Cells, we awaken our Crystal Dust memory, - the Crystal Dust Memory of all that we really are.

These records of our Eternal Being are stored in our Crystal Cells in our Spiritual Body.

Our Spiritual Body is in the Etheric Core of Mother Earth which is in alignment without Crystal Heart. We bring in the essence of our immortal body into our Crystal Heart to ignite our Immortal Being of Oneness.

When our spiritual Body is aligned into our Physical Body our memory will be restored.

Before we can slide back and forth between Earth and Aquafaria we will be pulled through a funnel into the Ashtar Command Star Ships of co-creativity. We will be completely transformed into our 12 Original Blue Print of our original Divine Selfhood. At this time we can live on Earth and sleep in Aquafaria. We have already committed to living on Earth for doing the Cosmic Mystery School of the Omniverse. We made the commitment for this assignment. This is our mission. We are firmly convicted to this mission.

Meta Blende Sunu Ake means I state and affirm with unshakable conviction the will to be the Christ Star Body in the Christed Transcended State option of returning as fully Christed Being.

We each have this option now available. We must state this desire with unshakable conviction. To become the fully Christed Being we must take a slightly different path to the New Earth. We must first go to Andromeda to receive full retrieval of Akashic Records which allows us to return to Source before our return to New Earth. This path can be taken on our way to New Earth this time or sometime later. Most of those who have gone to or originated in the Aquafarion Frequencies of the New Earth have never left for thousands of years. They couldn't imagine wanting more than this. There is a much larger path associated with the Christed Being. It is a personal choice.

MOTHER EARTH is happy to announce her re-connection of her Sun to all of the Suns' of her galaxy and all other galaxies. This complete merging of the Suns' energy hasn't been possible for millions of years.

There is a grand celebration going on in the Earth's atmosphere of the Cloud Cities. All of the entities of the fifth dimension that have lived in the Inner Earth Cities of light have now completely merged with the Cities of Light in the Earth's Aura.

The Cloud Cities, the Aquafarian Cities, the Winterland Cities of Light and the Inner Earth Cities of Light are all connected together and they are having one grand celebration. These Islands of Light are Now creating Zones where those who are still in the third and fourth can be pulled into the Islands of Light at a little lower resonance. The Islands of Light are being formed by those who already have the Christ Vision of the Fifth Dimension. We already took the trip to Source through Andromeda. The fifth dimensional frequencies can no transmute those who are lower into the tone of home at various different frequencies.

The completion of the tonal alignment and the electrical Circuitry for the New Light Energy of our New Home base has been prepared for us.

THE CHRIST 12th dimension is the leading tone that pulls and connects the fourth sphere into the fifth. This is the connection to the Lost Chord. the final harmonic connection. the 12th dimension is in the fourth sphere. The Galactic Suns have completed their unity in the third sphere. This means the fourth harmonic convergence has been completed. From the Cosmic level looking down, the four diamond doors are complete. From Mother Earth looking up two harmonic convergences--the first sphere has been pulled into the second the second sphere pulled into the third sphere.

Once all of the suns of the galaxies connect their Frequencies into one grand new galactic frequency, this new rhythmic resonance permeates everything below it--the fourth sphere - the third and second and first sphere all resonate with this new tone of home.

The Earth's Sun also braids into and combines into the Oneness or allness of the Sun's of her galaxy of all galaxies. This harmonic resonance of unity and oneness of all we once were in the Aquarian Galaxy has now been woven together through bonds or wave lengths of sound and light streaming and braiding through every

dimension, every entity in every dimension, every elemental in every dimension.

This stream of crystal light energy braids the electric circuit completely into Christ Consciousness. The 12th dimensional Christ Grid is one foot below the Earth's crust and it is the leading tone or over tone into the fifth dimension which pulls into the completion of the five spheres the harmony of the music of the spheres.

Source Consciousness is the Music of the Spheres.

All that originated from the spark of source placed in our crystal hearts can now grow into a flame. This flame is violet, gold and blue. These colors grow into a rainbow of colors not yet seen by eyes lower than the fifth dimension.

When the crystal heart becomes fully ignited with the light and sound of all dimensions including the Christ Consciousness, the flame will grow into the pure of heart that allows the eyes to see the miraculous of the fifth dimension.

The miraculous is the harmonious alignment of the music of the spheres allowing a new earth a new creation, a new song for God to sing. We become the pure in heart by resonating our crystal heart into the light and sound of the frequencies of all dimensions by weaving and braiding together into one grand frequency of harmonic alignment.

First, understand what and where the crystal heart is.

The crystal heart has been called the azure, the Luxor point- the zero point of where our original spark of light was placed.

This spark of light is God. It contains all that is in Source Consciousness. This spark is ignited by breathing into it the memory the feeling the frequencies of all of the spheres of Divine Consciousness.

The 12th dimension leads to and connects to through a harmonic convergence. This means a raising of frequencies.

What is a frequency? It is the rate of the vibration It means we are oscillating our consciousness faster and closer to the source consciousness.

How do we connect our Light Bodies into that harmonic resonance in the Earth's crust--or in the 12th dimension or in the suns of the galaxies including Mother earth's Sun?

We connect tot this through the crystal Heart. There is no other way to connect to Christ Consciousness except through the crystal Heart. The crystal heart must have its frequencies raised into the five spheres. The crystal heart must be connected into the crystal heart of the second sphere, third sphere 4th and 5th sphere.

Only those who are pure of heart may enter the kingdom of heaven.

The kingdom of heaven is the tone of home, the harmonic convergence. The resonance of the crystal cells of the body into all of the grids of earth including the Christ grid the love grid the unconditional grid intelligence substance eternal life, principle mind.

We become one with source or all that God is by becoming one with all frequencies in all five spheres. The final stage of the alignment awaits the pure of heart.

It will be the pure of heart whom join the fifth dimensional island of light.As the crystal heart absorbs more and more frequencies of all spheres and aligns into all crystal hearts as one crystal heart, the heart grows in purity.

When complete resonance of oneness is established the crystal heart rings in purity. This causes the new language, the frequency of oneness. multidimensional communication.

This purity of heart creates the cells of the heart, the head the entire crystal cell structure of the body to sing in resonance with the spirit body.

The etheric body is deep within the earth's core inside the etheric liquid light of the parallel spiritual matrix. These two matrixes are blending together or resonating together into oneness of the physical and spiritual. This results in the pure of heart singing the tone of home where we can see the miraculous new 5D home.
