

Like Being With You

Winter, Spring, Summer, especially Fall. Go with anytime you call
At the ready, like being with you
Long nap, morning walk. Always listen, never talk
Just so happy, like being with you

Stay out 'til way past midnight, I don't mind
As long as you come home
I'll be waiting, anticipating,
With kisses to spare

Loyal friend is hard to find. Never let you fall behind
Ride or die partner, like being with you
One thing I'll ask of you. Just promise you'll love me too
Never leave me, like being with you

Moral to this story is plain to see
Prefer each others company
You're the reason, I'm a howlin'
In perfect harmony

Winter, Spring, Summer, especially Fall. Go with anytime you call
At the ready, like being with you
Like being with you
Like being with you
I like being with
