

## Presstext Single Connexion 2020 (E)

M SOKE, "the first transgender on the dancehall agenda", presents us with its new acoustic track CONNEXTION further new facets.

Only with guitar and vocals the relaxed Swiss with Tanzanian roots creates a powerful and sensitive song out of the everyday stress of his fellow men and his own personal struggles and challenges with a wonderfully positive and catchy hook.

In the remix there is a funk band arrangement, choir elements and a deep rap part on the ears.

One song, two versions that radiate power and simply put you in a good mood!
