

## **Send me a dream**

You're just pretending  
You know me  
You make me feel so good inside  
And make me think that everything's al right

You´re like an actress just playing  
Twist my feelings round and round  
And make me feel that you're not far away  
I really do believe in what you play

You send me a dream every night and I pray  
Don't give moments of illusions  
And tell me are you really here to stay  
They say I've been blind  
Most of the time  
But believing makes the blind man see

I want to hold you, to see you  
The finale stage for you and me  
That moment I won't let you slip away  
The next time I just want to hear you say

You send me a dream every night and I pray  
Don't give moments of illusions  
And tell me are you really here to stay  
They say I've been blind  
Most of the time  
But believing makes the blind man see

Music: Endre Flatvad

Lyric: Øystein Sørensen
