

How You Gonna Do Me Like That

Schnebelen

We've known each other since we were kids, cut teeth on the same old stone
One day shined a different light, suddenly affecting me in my soul
My heart was wounded tired and weak, felt like I'd been through Hell and back
To have your love directed at me, I never thought I could stand the chance

I was blind to all of the signs
Now I find you're on my mind all of the time

How you gonna do me like that
You came up on me and changed my world
How you gonna do me like that

It was like I was buried in sand to my neck and I couldn't breathe
You came up to me with a rope in your hand pulled me out of my misery
It was a long time coming kind of love but we were still the last ones to know
Now we're together any time spent apart feels wasted and I want you to know

I was blind to all of the signs
Now I find you're on my mind all of the time

How you gonna do me like that
You came up on me and changed my world
How you gonna do me like that
