

Burning For You

I get the feeling down in my toes
It's you that's drawing near
When I'm around you I'm so exposed
Naked but I have no fear
Oh, when you look my way
I feel the heat start to rise
Oh, when you look my way
It's something I can't deny

You've got me burning for your love when you call my name
Burning for your love, oh I'd do anything
Just to have you by my side
You've got me burning for your love when you squeeze me tight
Burning for your love, keep me up all night
What can I do, because I'm burning for you

You make me feel like I'm the Queen of the Night
You're my King
But I'm really just standing in line
With all the girls pining at your feet
I stand there, I try to wait my turn
But I'm getting weak in the knees
I'm past the boiling point of no return
I just can't take the heat
Oh when you call my name
I'll heed your every command
Oh when you call my name
I'll come running as fast as I can

CHORUS

Baby look my way
You are my every desire
Baby call my name
I feel my heart catching fire

CHORUS
