Whos' blood is on the wall?
And who's blood is on the door?
Who's hands are on the gun?
Who's body's on the floor?

I feel like a windshield smashed
Incubus car crash
Hurricane came smash
And it's smash and crash!
Full of glass...
Oh my God, I cut my ass!

Your'e running alone
The streets are your own
Where did everything go?
Where did everything go?

You're running alone
You're on your way home
Where did everything go?
Where did everything go?

Unreligious treasures
Victim of a violent society's lies!

Relax, 'cuz you're ridin' on the freeway...
