

Run Away

Written By Joshua Lepp

V1

When I was just a kid people told me go run
Run away from love run away from everyone
I came upon a bridge overrun with people past
Over it at last it was the first time I looked back

Pre-Chorus

And what I saw was the life I used to live
Running after me running after what I did
And all this time I was thinking I'm ahead
I'm right back at the start right where I began

Chorus

Run away, run away, run away, run away

V2

Every time I look, look back from where I've been
I wonder what I've done I wonder what I missed
Time runs slow when you're running out of breathe

My reflection in the glass it seems is clearer than ahead

Pre-Chorus

And what I saw was the life I used to live

Running after me running after what I did

And all this time I was thinking I'm ahead

I'm right back at the start right where I began

Chorus

Run away, run away, run away, run away
