

Through The Storm

Written By: Joshua Lepp

V1

I met a man beside the road

He asked if I can make it on my own

I said I tried time and time again

He said son, just give me your hand

Pre-Chorus

Please step in front of this mess

I have made

Be my guide come light the way

Bring me home bring me life I'm on my way

Chorus

In every moment it feels like you're alone

I'll be right there beside you

To bring you through the storm

In every moment it feels like you're alone

I'll be right there beside you to bring you through the storm

V2

Bigger than your pride and hate

I am the reason you make it through the day

Far bigger than anything

My Son's insurance I love you anyway

My Son's insurance I love you anyway

Pre-Chorus

Pre-Chorus

Please step in front of this mess

I have made

Be my guide come light the way

Bring me home bring me life I'm on my way

Chorus

In every moment it feels like you're alone

I'll be right there beside you

To bring you through the storm

In every moment it feels like you're alone

I'll be right there beside you to bring you through the storm

Bridge

Love that never lets me go

I am lost in the arms of a saviour

Grace no other has been found that takes my burdens away

X2

Chorus X3
