Devils Playground

Firstly, thank you for your interest in booking Devils Playground for your event. Below is a list of our Technical Requirements. Although sounding formal, we do not mean to cause any inconvenience to yourselves, and this document has been designed to assist the technical engineers prior to & on the day of the event to ensure smooth running and optimum effectiveness.

Standard setup

We run a completely cab-less setup on stage and because of this we assume that there will be a PA system capable of running the Kick drum, Bass Guitar (Helix), 2 x Guitars (1x Kemper 1 x Line 6 HD500x), 2 x Vocals and Samples. **If the PA is not capable of running the full band setup, please let us know ASAP**

We shall bring an 12U rack unit, which we would normally positioned on stage next to the drummer or off to the side of the stage dependent on stage space.

The unit contains a X32 Rack, which we control all our own in-ears monitors from. This rack has a transformer isolated passive split for 8 channels. Kick drum, Bass, Guitars, vocals, and Samples. We will then provide the house with 8 channel tail splits for FOH. There is a 15-meter XLR loom to allow connection to FOH house stage boxes etc.

Mains Power Locations

Power is required at back of stage or off to one side for the rack and also at front of stage for pedalboards.

Wireless information

Our wireless systems are Line 6 systems running on 2.4ghz and IEMs running in channel 70, 863-865MHz spectrum

We also control our IEM mixes by WIFI using our phones to our own router in the rack , If you need to assign us a particular Wifi radio Channel please let us know.

Devils Playground

Channel List

Stage box input	Splitter input	Instrument	Tail output (XLR marking)
	1	Kick Drum (Jack)	Kick
	2	Bass Guitar (Spike)	Bass
	3	Guitar L (Stage Right) (Ian)	GTR L
	4	Guitar R (Stage Left) (Luke)	GTR R
	5	Vox 1 (Leanne)	V1
	6	Vox 2 (Matt)	V2
	7	Samples L	S L
	8	Samples R	S R

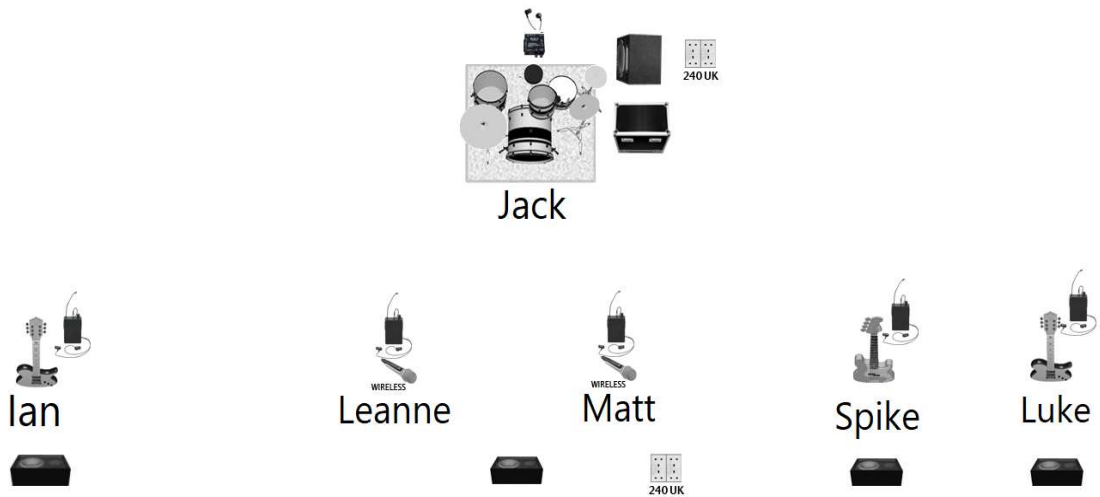

If stage box inputs are limited, we could possibly be able to run the above lines for other bands through the splitter to aid in change over times

Devils Playground

Stage Plan

Members of the band

Jack – Drummer

Spike – Bass Guitar

Ian – Guitar

Luke – Guitar

Leanne – Vocals

Matt - Vocals
