### STAGING

**MILF Life Crisis** requires at least a 12'w x 6'd stage area with good general lighting and audio. Please see below for the minimal and ideal circumstances for this presentation.

**FULL Version** includes a curtain backdrop, focused lighting and video projection.

**Cabaret Version** is one that can be negotiated with Genny DeMerchant, if any or all of the elements of the Full Version are not possible in your venue. A simple stage with aesthetically pleasing drapery and/or décor, flattering lighting, and ability to blackout is required.

### SET ELEMENTS

Both versions require a standard cafe table (bar height), and one standard hat rack onstage.

### SOUND

**FOH:** In all venues, MILF Life Crisis requires clear distortion-free audio capable of loud volume and full range sound through a stereo pair of professional cabinets with clear audition to all parts of the audience.

**PLAYBACK:** MILF Life Crisis is run from Q-Lab on a MacBook Pro. Please provide 2 channels with EQ and a 3.5mm stereo feed into your board from wherever the operator will be positioned.

**MICROPHONE:** Please provide a reliable professional wireless lavalier microphone, equivalent or greater in quality to the Sennheiser G3 with a headset and fresh batteries for each performance.
