

FinTan General Stage Layout (Small Space)

Front of Stage

Pat

1 vocal mic w/stand
+ 1 input line
(Guitar)

Karen

1 vocal mic input
(wireless station)

Ryan

1 vocal mic w/stand
+ 1 input line
(Bass)

Mark

1 vocal mics w/stand
+ 1 input line
(Accordion)

Ken

1 vocal mic w/stand
+ 1 input line with
Phantom Power
(Bodhran – Irish Hand Drum)

Katie

1 vocal mic w/stand
+ 2 input lines
(Mandolin & Fiddle)

Karen uses a wireless headset for her microphone input – all she needs is a line setup anywhere on stage near power. All instruments have DI capability or we can use your DI boxes – either works. We can be flexible with our setup – Karen’s wireless is the only wireless gear we currently use. We need 6 mics and 6 mic stands for everyone else. Mark’s uses 1 mic for vocals and penny whistle. We do not need phantom power for any of our connections except Ken’s Bodhran. We do not have any on-stage amps – all our instruments plug straight into the soundboard. We need at least three power drops to run pedal boards, etc. depending on the wide of the stage.
