*Includes:* Being thoroughly trained and tested in first aid training and CPR; watching water and enforcing rules; creating and maintaining a fun and safe environment. Worked into supervisory capacity.

## Summary

Seeking responsible self-support position while I continue my studies towards Secondary Educational degree (Phd). Preferably educational related to give a wider experience level and availability to continue coaching and related activities. A "quick study" with a good variety of base skills which should require little to no additional training.
