

WAKE UP GIANT

NEW DIMENSION OF ROCK'N'ROLL

SURF/SKATE & SNOWBOARD LOVERS

Locked in a concrete city, they are desperately looking for better views, more colors, more love and adrenaline to live.

Maybe that's why their music is so energetic and enthusiastic about everyday life. Their melodies are catchy, giving a powerful kick to struggle with any adversity.

In May 2020 they released their debut EP with 3 songs:

Out of My Heart
She said
Love

Will it be loud about them?
It depends on you...
All you have to do is turn on PLAY and the Giant will wake up ...

Love for surfing, snow/skate boarding, and rock and roll has resulted in founding a unique band. Solid drums, dancing bass, cutting guitar and characteristic vocal mixed together, emphasize only the bond that unites this trio.

"Every time We play together it feels like We're summoning unknown unrestrained energy, something like a human being but with a doubled strength, something that moves the walls, ceiling and our limbs. Something We can't name but still feeling something extraordinary happens. We want to share it and evoke this energy in others. Who knows, maybe someone listening to our music will bang on the table, tear down the wall or do something he thought was impossible for a long time... "
