JOHNNY GALLAGHER

BIO, STAGE RYDER & SPEC SHEET SUMMER TOUR 2021

Widely Acknowledged as one of the finest guitar players touring the European circuit, Working his way through Festivals, Clubs & Venues all over the Continent. His show with the Boxtie Band is a powerful "Over-driven" Rock'n Roll show, featuring his own original material with stunning personal versions of selected classics.

Johnny's charisma creates excitement on stage with his much sought after "larger than life" presence. He can change from full on aggressive rock to quieter moments of more tender introspective-music, and through his set he shows his wizardry on both electric and acoustic guitars. His guitar playing covers a unique range of Rock styles and Country pickin, with which he can naturally and masterfully turn himself into a true Blues man. To top it all, Johnny possesses a truly unique and expressive voice which show cases his songs with the dynamics to swoop from a scream to a whisper.

Having toured all over Europe for years with Johnny his musicians are essentially the backbone as they instinctively understand Johnny's music and always know exactly what and where to play in complementing Johnny's lead playing.

Solid consistent Bass, always powerful and never too busy. An Unorthodox organ and boogie style piano, Punchy drum grooves and rhythm's that tie it all together.

Johnny and The Boxty band have a force that doesn't appear out of nowhere, Its like an ageing process that takes time to mature, Johnny visits the unknown on stage, ad-libbing, jamming, improvising. and that's the magic at all his live shows.

To jam it out... also gives the audience the power to Zone in Rock'out and enjoy.

Because...

Its plain and simple, Rock and Roll...
