

Good Girl Gone Wild

©Anouschka Pearlman

Gonna sin while I'm living
I'll be a saint when I die
I'm so tired of trying to do everything so right
Too old for rules now; I've done my schoolgirl time
Check me out, check me out, check me out now,
I'm a good girl gone wild
A good girl gone wild- a volcano on the run
The kind that's dangerous...but fun
Just learned how to drive,
So I'll drive my soul straight to hell
Drink whiskey with the Devils friends
While Heaven rings my bell
Got a license to knock any man out of my way
If you break my stride,
I swear I'll make you pay
My mama will be crying to the angels. saying
"Lord what's to be done?"
My good girl- she's gone crazy;
She's gone wild! Is she in love?
I'm a good girl gone wild
A good girl gone wild- a volcano on the run
The kind that's dangerous...but fun
Just learned how to drive,
So I'll drive my soul straight to hell
Drink whiskey with the Devils friends
While Heaven rings my bell
You can package me in silver
You can package me in lace
You can package me any way you want;
I'm still a blue-jeans-babe
Sold all my jewelry, but I kept all my guitars
I'm a good girl gone wild with a freedom mission in my heart
I'm a good girl gone wild
A good girl gone wild- a volcano on the run
The kind that's dangerous...but fun
Just learned how to drive,
So I'll drive my soul straight to hell
Drink whiskey with the Devils friends
While Heaven rings my bell
