

## LET IT ROLL OFF YOUR BACK

© 2000 by Heather Pierson

If you're feeling sad and blue  
Let it roll off your back  
Or if you're feeling angry  
Let it roll off your back  
'cause happy times are coming back to you  
Just give it some time  
So until then just smile  
And let it roll off your back  
You gotta let it roll off your back

If people can't see things your way  
Let it roll off your back  
Or if you can't understand what people do  
Let it roll off your back  
'cause everybody's doing  
The very best they know how to do  
Sometimes you have to smile  
And let it roll off your back  
You gotta let it roll off your back

Well I haven't lived a long time  
But I know this much is true  
When the world is getting you down  
There's only one thing to do  
You let it roll off your back

If you made a mistake or two  
Let it roll off your back  
Or if you can't do a thing about it now  
Let it roll off your back  
'cause tomorrow you can take with you  
The things you learn today  
So until then just smile  
And let it roll off your back
