

Misery

Written by Jeff Berkley & Calman Hart

I'm gonna put myself out of your misery
I'm gonna get myself straight
I'm gonna leave you alone with your company
Gettin' out before it's too late

There ain't no light that can shine in your darkness
No fire can live in this cold
There ain't no wound that can heal in your sadness
Gettin' out before I get old

I won't look back when I walk away
Like I did before
Don't try to tell me you'll change if I stay
'Cause I don't hear you no more

I'm gonna put myself out of your misery
I'm gonna get my head straight
I'm gonna leave you alone with your company
Getting' out before it's too late
