

## **Walkin' With My Shoes Untied**

Jeff Berkley

I have a shoe string theory  
Two souls together in time and space  
I hypothesize, when I look into your eyes  
This experiment could go either way

I'm just walking with my shoes untied  
Across a wire way up high  
A chance of disaster with every stride  
Nothing between me and open sky

It doesn't matter how I got here  
But I must reach the other side  
I'll just have to keep on goin'  
Walking with my shoes untied

I have a shoe string budget  
Just barely getting by  
Peter robs Paul every day  
And Mathew, Mark and Luke from time to time

[Chorus]

I've seen my share of trouble  
I carry most of it inside  
I know that it will own me  
If I don't learn to make it mine

[Chorus]
