

Hocus Pocus

Jeff Berkley

Hocus pocus
Out of focus
You don't feel it anymore
Claustrophobic with emotion
See you looking for the door

Legend says that love makes dreams come true
As long as you're dreaming of me and I'm dreaming of you

Love is blind
And love is kind
And love don't leave us to decide
Love who I am or just leave me behind

Presumptions
Assumptions
Cause disfunctions
No one loses no one wins

This lovely illusion
Caused confusion
And our hearts were taken in

You did not choose me and I did not choose you
There are no rules to follow

Love is blind
Love is kind
Love ain't conceived in the mind
Love who I am or just leave me behind

We can always make room for each other
Some changes are holy
But we are just going to ruin each other with all of this controlling

Love is blind
And love is kind
Love ain't defined
And love ain't confined
Love don't need us to decide
Love who I am or just leave me behind
