MUSIC

Blue Butterfly the EP did not start out this way. These are some songs I wrote years ago and after playing them over and over and together. I noticed something. The songs were telling me a story. It is a love affair of sorts. I hope you enjoy the music as much as I enjoyed creating it. These songs yes were written in a dark time in my life but, they have a new life and my new beginning. The actual story is something you have to figure out yourself. Remember to listen with headphones and an open heart and mind. Let the music set you free

Soul to Soul,

BANIC
