Rapper/Songwriter from Kanas City

**STBtheDon** single "Mandy" continues to gain momentum with so much constant fan engagement!

He's drawing serious industry attention being heard on the radio in the mid-west 90.1 FM KKFi and other stations, too.

This culture-relevant and gifted new wave swag rapper follows in the footprints of Lil Uzi Vert, A Boogie Wit Da Hoodie, and Jay-Z. STBtheDon composes full songs in his head spitting bars in the booth without writing down a single lyric!

**STBtheDon** is an up and coming rap artist from Kansas. His vitriolic rhymes are accompanied by enticing beats and are the portrait of his genuine emotions. His aim, however, goes beyond self-expression: "Everyone has a story," he explains, "and I feel my story connects with a lot of people that don't get a chance to share their story."

*STBtheDon's new EP might only be 4 songs long,...but every second is musical entertainment.*

*Don is an artist who set out to create a one-of-a-kind, innovative sonic formula, but combining the energy of rap with some extra melodies and even some unique vibes. -wu-world*
