

Joy Thieves

Shut your fucking mouth and keep your hands where I can see them
Do exactly what I say and this will all be over soon
If you value your life and the lives of those around you
Put the money in the bag and we all just walk away
But if you think that you're a hero, let me offer this advice
It's hard to be a hero with a hole between your eyes

Joy Thieves
A hole between your eyes
Joy Thieves
No one has to die

Stay face down on the ground
Don't make a fucking sound
Stay face down on the ground
Don't make a fucking sound

Ladies and gentlemen, in this unlikely scenario...I am the alpha male

I'll take everything you have
Now just put it in the bag
I am the alpha male
I am the alpha male

This Will Kill That

I try to maintain
A victim of my own lucidity
And when I try to stay sane
All the madness just crawls right out of me
When I throw on the light
My body in relief, it's clinical
A corpse dying of fright
The movement in the mirror is minimal

Bet you never thought that this would kill that
Bet you never thought, bet you never thought
I never thought
You're trying to do what?
Make this one kill that
Trying to do what you were always scared of

To focus is hard
For lips that never move to communicate
And I'm always on guard
The object of the force to terminate
It's a throw away life

My body and my thoughts just vaporize
And I'm covered in bites
By a madness that remains still weaponized

A maze that's mine
A blade so fine
Bet you never thought, bet you never, never, never thought.

Chemical Dreams

Remember me
I'll always go on long after I'm gone
Remember me
As dark as a ghost who loved you the most
I can bleed
This dirty soul, hear me knock and never know
I can bleed
Out of control
What you can see can leave you cold

Flowing through the doubts when you smell a lie
Damn, you're still alive
These chemicals they never really dull the stain
Just another needle pushing in vain

Acid cowboy rides again
He's no one's friend
He speaks in riddles, tongues and rhymes
A fucking crime
I can bleed
This dirty soul, hear me knock and never know
I can bleed
Out of control
What you can see can leave you cold

Deep in the plan, man
Nothing making sense and
Stranger in the stranger
Ignore all the dangers
Blame it on the wrong God
Find the love is long gone
Sleep in the chemical dream
Sleep in the chemical dream

Sweet dreams are made of fucking deeds
Sweet screams are made of fucking deeds

These chemicals they make a stain
These chemicals they fill the vein

Tempting the Flames

It takes you to a place deep down inside
It's the only place that you can run and hide
To escape the only way left for you
Getting fucked up on your smack will get you through
So you run

And every time it's all the same
Can't be judged, you can't be blamed
But it's you tempting the flames

But you can not see the forest for the trees
You're thinking there's nothing wrong with me
It won't happen, it won't happen to me
But it's coming straight for you and it won't slow down
It will keep you under the waves until you drown
Yeah, you drown
So you run

And every time you feel the pain
The needle further into your vein
You think it's God, but it's not
And every time it's all the same
Can't be judged, you can't be blamed
But it's you tempting the flames

The highs, the lows, the want, it grows
All the time inside your mind

Honeycomb and Silk

The buzzing in the tips of my fingers
And the tickling in my tongue
The streaks of lightning beneath my eyelids
And vibrations in my lungs
The swollen bumps that throb and pulsate
And seep fluids down my face
The woven threads that conceal the larva
That live only to debase

They let me know there will be no resting
They let me know they will never cease
They let me know that they've started nesting
They let me know there will be no peace

Earth is coming back for me
Honeycomb and silk are all I see

Earth is coming back through me
What once was me is hollow
I don't belong to me
I don't belong to me

Diseased worms wriggle from my fingers
Squirming bumps beneath the skin
All the sores chewed into my eyelids
And the botflies held within
They let me know that they're now ingesting
All the nutrients meant for me
They let me know that they're manifesting
And taking over inside of me

Earth is coming back for me
Honeycomb and silk are all I see
Earth is coming back through me
What once was me is hollow
I don't belong to me
I don't belong to me
