

Presentation Information:

VSLP will supply a single microphone and stand for the presentation if it is to take place in a gymnasium. This microphone will have to be connected to the house sound system. However, if the show is performed in a theater, another arrangement may need to be made ahead of time so that a sound system can be in place.

Our overall presentation time for the students is around 45 minutes, and the presentation is very fast-paced with no pauses. We involve the students continuously throughout the program. Valerie's educational show is designed to handle a large, diverse group of children of all ages.

The following topics will be taught:

The History of Bluegrass Music

What is Bluegrass Music?

Who was Bill Monroe?

Where did Bluegrass Music come from?

What are the different instruments used in bluegrass music?

What do they sound like and how are they played?

Bluegrass lead singing demonstration.

What do the vocal harmonies sound like in bluegrass music?

A dance demonstration – dancing to bluegrass music.

The program is interactive and fun for everyone! If you have any questions, please contact Valerie at 931-639-3004.
